Mac-Warehouse Makes *Utah Business 2018 Fast 50* List in Second Consecutive Year

SANDY, UT—Mac-Warehouse, a Utah tech company, has been listed in its second consecutive year as a recipient of the *Utah Business 2018 Fast 50* list of the state's fastest-growing companies.

The Utah Business Fast 50 celebrates some of the fastest growing companies in Utah. These companies are selected based on their entrepreneurial spirit, innovative business tactics, and rapid revenue growth.

"I am so proud of our entire team for the efforts they continuously put forth," said Brett Kitson, Mac-Warehouse's CEO and co-owner. "We all constantly strive to offer Mac-Warehouse customers the amazing Apple products they want at a price they can afford. That is what fuels this rapid growth."

Last year, Mac-Warehouse won thirty-third place among the fifty top Utah companies. The countdown from fiftieth to first place will be announced at the Utah Business annual celebratory luncheon on August 16.

Mac-Warehouse was founded by Brett Kitson and James Roth in 2011, specializing in refurbished Apple products. Apart from its impressive growth, Mac-Warehouse owns Certified Preloved™, a trademarked high-standard refurbishing process, and retains a brick-and-mortar store in Sandy, Utah. Mac-Warehouse also supplies top-quality refurbished Apple products to national chains and retail giants, such as Groupon, Shopko, Walmart, and Target, to name a few.
